

Installing the Library Wireless Printer on Windows 7

Installing the printer driver:

1. Verify you have access to the network by browsing the Internet.
2. Open Control Panel
3. Under Hardware and Sound, select View Devices and Printers
4. Click "Add A Printer" from the menu bar.
5. Click Add a Network... printer
6. Windows will search for printers. Stop the search by clicking on "the printer I want is not listed."
7. Select Add a printer using a TCP/IP address or hostname. Click Next.
8. Enter 180.101.8.196 then click next.
9. Click Windows Update from the drivers dialog box. (this may take a few minutes to populate).
10. Under manufacturer, select "Dell" and under model select "Dell 5330dn Mono Laser"
11. Click Next, then click Next again.
12. Skip the test page and then click finished.

Be sure to select the Dell Laser Printer 533dn printer when printing.

Removing the printer from your PC:

1. Open Control Panel
2. Under Hardware and Sound, select View Devices and Printers
3. Right-click the printer that you want to remove, and then click Delete.

**LOCATION: The printer is located in the library at the 1st Floor
Reference Desk.**

**THIS WIRELESS PRINTER IS OFFERED STRICTLY AS A COURTESY TO OUR
STUDENTS.**

**Westchester Community College Information Technology Policy states that
Westchester Community College Technical Support DOES NOT SUPPORT any
non-WCC Hardware. If you cannot connect the wireless printer to your laptop
following these instructions, you will have to use our networked equipment.**
