<sup>1</sup>Student Success Rate equals total associate degrees after four years plus all Transfers to a four year college plus all Persisters Still Enrolled.

<sup>2</sup>The non-SUNY transfer data is available for three years only, so the 2004 (four year) cohort reflects the 3-year transfer rate for "Other Transfers" rather than the 4-year rate. Thus, the "Other Transfers" data to private and out-of-state colleges and universities underestimates the actual number of this cohort.

<sup>3</sup>The aggregated SUNY and sector data use estimated persistence data for the 2005 and 2006 entering cohorts for the 12 institutions that transitioned to the new SIRIS System.

Data Source: WCC Office of Institutional Research and Planning, taken from SUNY Report #(09-10), "Graduation, Attrition and Retention Survey," Fall 2009.
