

Bright Futures

FALL SERIES 2024

CAREER PATHWAYS IN ENERGY

Bright Futures is a program that prepares students for careers in energy, engineering, and manufacturing industries. Students learn about these careers and what it takes to enter these important and growth fields.

Featured topics include:

- *Meet industry experts in the energy sector.
- *Learn about electrical, gas and environmental systems.
- *Local tech leaders discuss industry needs and outlook for the future.
- *Understand academic program options that support technical careers.
- *Network with local area experts to learn about working in that field.
